The March of the Unemployed

The march of the unemployed to Edmonton to try and persuade the Alberta government to give them relief, which started from Calgary on Friday last, reached Airdrie and at that place commanded a through freight train and rode through to Strathcona where they were received by about 50 police who arrested the whole bunch, 125 of them, on Sunday night. They were given food and hot drinks and scattered around in different police stations till Monday morning when they were tried under a charge of contravention under the Railway Act of riding without payment and found guilty but let out on suspended sentence.

Three of the leaders, under the escort of police, were allowed to interview Premier Grenfield and Alex Ross, the Premier stating that the government's position was unchanged in regard to unemployment doles. The hikers were then put into two special coaches and shipped back to Calgary at the government's expense.

Some excitement was caused in Didsbury as it was expected that these men would reach here sometime on Sunday but of course that did not happen.

Reports state that the men behaved well and caused no disturbance of any kind wherever they stopped.

ANOTHER GOOD PICTURE WITH SPECIAL PRICES

Mr. Sharpe, manager of the Opera House, has secured another fine picture entitled "Boy of Mine," which was written by the same author as "Penrod," Booth Tarkington, which will be shown next Wednesday evening, April 1.

No family is happy unless there is a perfect understanding between parents and children—especially between father and son. This picture gives a story which proves this contention, and while tears are very close to the surface in places the humor it contains also causes you a hearty laugh.

A special price has again been made for this family picture of \$1 to the whole family, which includes father, mother and children under 16 years. All other admissions usual prices.

PRESENTATION BY MOUNTAIN VIEW WOMEN'S INSTITUTE

The Mountain View Women's Institute held a very successful and pleasant meeting on March 19th, at the home of Mrs. E. L. Barnes. There was a good attendance and the roll call was answered by events in the life of St. Patrick, many of which were very amusing. After the business part of the meeting was finished Mrs. Jackson on behalf of the members presented Mrs. Ashton, who is leaving our community with a silver spoon and expressed the sorrow of the community and gratitude at her departure and best wishes for her future welfare.

Mrs. Ashton, in a few well-chosen words, thanked the ladies for their gift and the kind remarks made.

Community singing and instrumental music with the singing of "God Save the King" brought the meeting to a close. A short social time was spent by those present at which the hostess, Mrs. Barnes, served a dainty lunch which was much enjoyed.

PIANO FOR SALE:—A splendid full-toned piano in mahogany case, in good condition. Apply H. E. Osmund, Didsbury Pioneer Office.

Another Old Resident Passes Away

The sudden death of Mr. Ab. Cooper occurred on Sunday at his farm west of Olds, at the age of 52 years. Heart disease is thought to have been the cause of death.

Many old timers will remember Mr. Cooper who, with his brother Jack, was one of the first merchants to start a general store in Didsbury. The store used to occupy a lot between W. G. Liesemer's hardware store and W. Hilliard's harness store. Both of the brothers were great horsemen and after giving up the store here some years ago moved out to the west country to go into horse ranching. Since that time Mr. Cooper bought a farm nearer the town on which he has resided ever since. He was of a quiet disposition but well liked by the general public who dealt with him. His brother Jack is now living in Vancouver.

Mr. Cooper leaves a wife and four children to mourn his loss.

The funeral will take place on Friday afternoon, services being held at the English church at 2 p.m. The remains are being held at Durrer's undertaking chapel and friends who would like to see him can do so from 8 to 10 p.m. on Thursday and from 10 to 1 p.m. on Friday.

WESTCOTT AND CLOVERMOUNT

We wish to announce that the party held at Mr. Jesse Tugle's was a success and everyone there reported a fine time; the entertainment consisted of games and afterwards the ladies served a sumptuous supper following which all returned to their various homes feeling fine.

The Sunday School which was recently organized at Clovermount has turned out to be quite a success.

We are pleased to know that Mr. Olaf Sande is back in our vicinity again.

Mrs. Carl Russell and family were the guests of her parents, Mr. and Mrs. T. A. Murphy over the week end.

We hear Mr. E. M. Stringer is visiting with his brother-in-law for a few days, seems as though Mert. is quite a stranger in this vicinity this winter.

Mrs. Oliver Eber of Great Falls, Mont., is visiting her sisters Mrs. I. H. Levagood and Mrs. T. A. Murphy over the week end.

Mr. and Mrs. L. Diehl and family who have been visiting with Mr. and Mrs. D. Armstrong have returned to their home in Invermere, B.C.

We sure feel badly to loose our friends and neighbours, Mr. and Mrs. Eli Shantz, who intend making their home at Vancouver, B.C. in the near future.

There will be quite a change in the Westcott neighbourhood on the 1st of April. At least we expect there will be, if there are no "postponements."

Miss Mildred Levagood has been laid up with a severe cold for the past week, but has returned to Didsbury to school again.

We hear some of our Westcott girls have new beaus. And we wonder who.

Our young fry sure do enjoy tobogganing this winter. But we fear it is near the close of the season. Tonight they will enjoy a weiner roast. We wish we could join them.

We hope to have spring soon. Of course hope is what makes life worth living.

Mrs. Harold Cunningham is sailing for England about the second week in April.

We expect Harry back in the neighborhood again. It will make it a little handier "eh" Harry?

Minature floods were to be seen in Didsbury on Tuesday night and on Wednesday morning there was about three inches of snow covering the ground. There will be lots of moisture here this spring and the low ground is likely to take all summer to dry out.

He was rushing through the station when a pretty woman stopped him.

"Would you please help the Working Girls' Home?"

"Certainly, but I haven't much time. Where are they?"—Ex.
"This match won't light."
"Washa madda with it?"
"I dunno—it lit all right a minute ago."—Ex.

FOR SALE:—Milk cows for sale, Shorthorns and Holsteins. Apply J. W. McLeod, Didsbury.

FOR SALE:—Toulouse gander; 2 yr. old goose; & white ducks and drake. Apply W. J. Scheidt, phone 609. 1c12

Grain Inquiry Cost

The total cost of the royal grain inquiry commission was \$170,610. This information was given to Hon. R. J. Manion, Conservative, Fort William, in the House of Commons, by Hon. T. A. Low, minister of trade and commerce. Fees and living allowance paid to counsel of the commission totalled \$44,832. Of this amount \$8,300 was paid to D'Arcy Scott, \$18,177 to S. B. Woods, and \$18,355 to J. F. Fisher.

Copyrighted, 1922, by Rafael Sabatini
"CAPTAIN BLOOD," a Vitagraph picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

SYNOPSIS

Peter Blood, a young Irish physician, who had been wrongfully condemned as a slave to the Barbadoes under King James, falls in love with Arabella, niece of the military commander at Bridgetown. He leads his fellow rebels-convent in an attack on a Spanish ship which had laid the city low and captures it. He sells for Tortuga, the rendezvous of the pirates of the Spanish Main. He accepts command of a buccaneer fleet, with Levasseur, a Frenchman, and his ship, under him. Madelon d'Ogeron, daughter of the friendly Dutch governor of Tortuga, is fascinated by Levasseur. Levasseur breaks faith with Blood and captures a Dutch brig on which is Madelon and her brother. Blood lands at the island where Levasseur proposes to hold the girl as hostage for ransom. Captain Blood pays the ransom. Levasseur draws and Captain Blood runs him through. Cabusac, his aide, enlists with Blood, who makes Madelon and her brother his guests on board his ship.

CHAPTER XVI.

The Milagrosa

In Tortuga, during the months he spent there refitting the three ships he had captured from the fleet that had gone out to destroy him, he found himself almost an object of worship in the eyes of the wild Brethren of the Coast, all of whom now clamored for the honor of serving under him. It placed him in the rare position of being able to pick and choose the crews for his augmented fleet, and he chose fastidiously. When next he sailed away it was with a fleet of five fine ships in which went something over a thousand men. Thus you behold him not merely famous, but really formidable. Three captured Spanish vessels he had renamed with a certain scholarly humor the Clotho, Lachesis and Atropos, a grimly jocular manner of conveying to the world that he made them the arbiters of the fate of any Spaniards he should henceforth encounter upon the seas.

And meanwhile the Spanish Admiral, Don Miguel de Espinosa, went raking up and down the Caribbean seeking his enemy, and in the meantime, as an hors d'oeuvre to his vindictive appetite, he fell upon any ship of Eng-

ONTARIO WOMAN REGAINS HEALTH

Wants Other Women to Know About Lydia E. Pinkham's Vegetable Compound

Mount Forest, Ont.—"Before I took Lydia E. Pinkham's Vegetable Compound I felt weak and miserable, and had pains all through me. I was living in Ailsa Craig at the time, and one day a friend came in and told me her experience of using the Vegetable Compound and advised me to take a bottle, which I finally did. I began to get stronger and those pains left me. I am glad I found out about this medicine as I think there is none equal to it for women who have troubles of this kind. I cannot praise the Vegetable Compound too highly for the good it has done me. Whenever I know of a woman suffering I am glad to tell her of it."—Mrs. WM. RIDSDALE, R.R. No. 1, Mount Forest, Ontario.

Women throughout the Dominion are finding health in Lydia E. Pinkham's Vegetable Compound.

No harmful drugs are used in its preparation—just roots and herbs—and it can be taken in safety even by a nursing mother. For sale by all druggists.

TORONTO, ONTARIO

turn being now at hand, a passage was sought for her aboard the Royal Mary, and in view of her uncle's rank and position, promptly accorded.

Lord Julian hailed her advent with satisfaction. His Lordship was one of your gallants to whom existence that is not graced by womankind is more or less of a stagnation. And Miss Arabella Bishop was a young woman and a lady; and in the latitude into which Lord Julian had strayed this was a phenomenon sufficiently rare to command attention. On his side, with his title and position, his personal grace and the charm of a practised courtier, he bore about him the atmosphere of the great world in which normally he had his being—a world that was little more than a name to her, who had spent most of her life in the Antilles. It is not therefore wonderful that they should have been attracted to each other before the Royal Mary was warped out of St. Nicholas. Each could tell the other much upon which the other desired information. Considering how his mind was obsessed with the business of his mission, it is not wonderful that he should have come to talk to her of Captain Blood. Indeed, there was a circumstance that directly led to it,

"I wonder now," he said, as they were sauntering on the poop, "if you ever saw this fellow Blood, who was at one time on your uncle's plantations as a slave."

"I saw him often. I knew him very well."

"Ye don't say!" and came to lean beside her. "And what manner of man did you find him?"

"In those days I esteemed him for an unfortunate gentleman."

Lord Julian was seeking to comfort and encourage her

"You were acquainted with his story?"

"He told it me. That is why I esteemed him—for the calm fortitude with which he bore adversity. Since then, considering what he has done, I have almost come to doubt if what he told me of himself was true."

"If you mean of the wrongs he suffered at the hands of the Royal Commission that tried the Monmouth rebels, there's little doubt that it would be true enough. He was never out with Monmouth; that is certain. He was convicted on a point of law which he may well have been ignorant when he committed what was construed into treason. But, faith, he's had his revenge, after a fashion."

"That," she said in a small voice, "is the unforgivable thing. It has destroyed him—deservedly."

"Destroyed him?" His lordship laughed a little. "Be none so sure of that. He has grown rich, I hear. He has translated, so it is said, his Spanish spoils into French gold, which is being treasured up for him in France. His future father-in-law, M. d'Ogeron, has seen to that."

"His future father-in-law?" said she, and stared at him round-eyed, with parted lips. Then added: "M. d'Ogeron? The Governor of Tortuga?"

"The same. You didn't know?" She shook her head without replying. "After a moment she spoke, her voice steady and perfectly controlled.

"But surely, if this were true, there would have been an end to his piracy by now. If he . . . if he loved a woman and was betrothed, and was so rich as you say, surely he would have abandoned this desperate life, and . . ."

"Why, so I thought," his lordship interrupted, "until I had the explanation. D'Arcy Scott is avaricious for himself and for his child. And as for the girl, I'm told she's a wild piece, fit mate for such a man as Blood. Almost I marvel that he doesn't marry her and take her along with him. It would be no new experience for her. And I marvel, too, at Blood's patience. He killed a man to win her."

"He killed a man for her, do you say?" There was horror now in her voice.

"Yes—a French buccaneer named Levasseur. He was the girl's lover and Blood's associate on a venture. Blood coveted the girl, and killed Levasseur to win her. Pah! It's an unsavoury tale, I own. But men live by different codes out in these parts . . ."

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monacetin-acetate of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitation, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Perhaps you are using good tea. We think "Red Rose" extra good. Won't you try it?

RED ROSE TEA "is good tea"

The same good tea for 30 years.

A Winning Fight

In promoting health and combating disease the great majority of people will readily admit the old adage holds true and that an ounce of prevention is worth a pound of cure. The trouble is that while Government, municipalities and people in general believe this, they do not always act upon their belief and live up to it. If they did there would be far less sickness and disease, fewer deaths and enormously less physical suffering, all of which would result directly in great financial gain to the State and to the individual citizen, and largely increase the productive power and prosperity of the world.

Again, while people generally agree that prevention is better and cheaper than cure, whether it be in the matter of health, or fire, or war, the vast majority remain rather hazy on the subject, with the result that they are critical of expenditures necessary to the taking of preventive measures, but at the same time are quite prodigal in spending money to cope with a crisis when one is precipitated but which could have been prevented by foresight and a much smaller expenditure.

Let an alarming epidemic of disease break out and begin sweeping through a community and the people will stop at no outlay of money to check it, although they may have year after year refused to vote a comparatively small sum which would have removed the menace which finally caused the epidemic. There was hardly any criticism in Canada over the piling up of a war debt of two billions of dollars, but there is now criticism of an annual expenditure of a couple hundreds of thousands as Canada's contribution towards the cost of the administration of the League of Nations in its endeavor to prevent future wars by removing cause for them.

It is necessary, therefore, to bring to the attention of all people as frequently as possible the decided benefits to themselves resulting from the taking of proper measures of prevention as individuals and as represented by Governments, Federal, Provincial and Municipal. It is in the interest of all that attention is drawn in this article to some remarkable advances made in recent years in the scientific prevention of disease.

Take smallpox as an example. There was a time within the memory of many people when this disease was quite common and the death toll very high. In the city of Montreal in 1885 smallpox was the cause of 3,164 deaths that year, but the costly lesson of that epidemic resulted in general vaccination throughout Quebec with the result that there has been no repetition of the epidemic. On the other hand, vaccination was largely neglected in the Windsor district of Ontario with the result that last year an epidemic in virulent form developed, and of those who contracted the disease and had not been vaccinated 71 per cent. died. On the other hand not one single death occurred in the case of a person who had ever been vaccinated. The epidemic was quickly controlled by the vaccination of practically the whole community, 50,000 people submitting to vaccination in two weeks. Vaccination is prevention of smallpox, yet in the face of established facts many people neglect to have their children made immune and some even vigorously object to it.

Consider diphtheria, once a dread disease, and still all too prevalent because of neglect of proper precautions. Given anti-toxin at the first indication of the disease and the chances are all in favor of a mild type of the disease and recovery of the patient. But better still is to immunize all children with toxin antitoxin so they will not contract diphtheria, and it has been positively established that through toxin antitoxin children are protected against diphtheria.

Or consider typhoid. Since 1900, typhoid fever, once so prevalent in North America, has been reduced by an average of 78 per cent. This was accomplished almost entirely by human intervention, by studying the cause of typhoid fever and then destroying it by, what the Minister of Public Health for Saskatchewan has described as, fire-proofing the individual against it. The total abolition of typhoid is quite definitely in sight if individuals and communities will only take full advantage of the preventive means now available to all. Already in Saskatchewan typhoid has disappeared from the list of fifteen diseases causing the greatest mortality.

The Great War taught the world one great and invaluable lesson. For the first time in history huge armies, unparalleled in numbers, were practically free from those two old army diseases, typhoid and smallpox, which formerly killed thousands. The compulsory use of methods of inoculation in the army have left objectors to vaccination and inoculation without an argument.

Tuberculosis, the dread great white plague, is also being overcome through education and the application of proper methods. The death rate is steadily decreasing. The betterment is being brought about, not through cures, but by prevention. Today the three Prairie Provinces have the lowest death rate from tuberculosis of all the Provinces.

Is the total banishment of these diseases merely an Utopian dream? No. An eminent public health man draws attention to the fact that leprosy has disappeared from the ordinary life of Europe, whereas 600 years ago, with one-tenth the population of today, Europe had 19,000 houses of refuge for the innumerable lepers of that day. Had leprosy continued, 190,000 such houses of refuge would be required today, while as a matter of fact there is not one. Leprosy is in Europe an abolished disease. We can likewise abolish smallpox, typhoid, diphtheria and tuberculosis if we go about it the right way and make use of the means which medical science and the tireless research workers of the world have given to us.

Population of the World

Was 850,000,000 in 1830 and Has Since Doubled

In the year 1830 the world had only 850,000,000 inhabitants. Since then the population has doubled. Prof. Ross estimates that in the year 2023 the world will have three and a half times as many people as now. "Race suicide" is a mythological evil; it doesn't exist at all, from a broad world viewpoint. The day may come when all habitable parts of the earth will be as overcrowded as China. But that the overcrowding problem will be solved some way is a pretty safe bet. As for the present, the farmers will be grateful for more mouths to feed with their surplus products.

Our Northern Wards

Heavy Cost of Preserving Law and Order Among the Eskimos

Quite evidently the Eskimo inhabitants of the northern coastlands of Canada need a good deal more regulatory attention than the mounted police can give them unless the strength of that force is very considerably increased. They would get it, too, if there was any way of making them pay the cost. They seem to be one class whose poverty and remoteness give them exemption from taxation. That being the case, the rest of us will have to count it part of the white man's burden to go on establishing police posts and patrols in that far off hinterland in order to keep the Eskimo from killing one another and murdering missionaries and traders who wander into their domain.—Edmonton Bulletin.

Joint Soreness Subdued, Swellings Quickly Reduced

Wonderful Results From Rubbing the Sore Parts With

NERVILINE

"My testimony should convince anyone that 'Nerviline' is a splendid preparation to use on swelled joints. Rheumatism left me badly crippled," writes Amos F. Fleury, from Kingston, "I went to McKay's Drug Store and they recommended Nerviline, which restored me completely."

For Rheumatic pains, Lumibago, Sciatica, you will get lasting satisfaction from a 35c bottle of Nerviline. Sold everywhere.

Game Law Conference Endorsed

Alberta has endorsed the proposed conference of game law officials of Canadian provinces and adjoining states. Manitoba proposed the meeting, and Minnesota has already endorsed it. Ontario has been asked to support the scheme. It is sought to provide adequate machinery for mutual protection and control of game on inter-provincial and international border lands and to breakers of law seeking immunity across these borders.

FEELING TIRED IN SPRINGTIME

Not Sick, But Not Quite Well— You Need the Help of Dr.

William's Pink Pills

With the passing of winter many people feel weak, depressed and easily tired. No particular disease but the system lacks tone. You find yourself tired, low-spirited, and often unable to get sound sleep at night. All this is the result of indoor confinement of the winter months, and shows that the blood has become thin and watery. New, rich, red blood is what you need to put you right, and there is no other medicine can give you this new blood as surely and as speedily as Dr. Williams' Pink Pills. This new blood goes to every part of the body and quickly improves the general health. Digestion is toned up, you have a better appetite, nerves are strengthened and sleep is sound and refreshing.

The value of Dr. Williams' Pink Pills when the system is run down is shown by the experience of Mr. William Mitchell, R.R. No. 1, Bedford, P.E.I., who says:—"A few months ago I found myself in a badly run down condition. My appetite was poor, I was easily tired and did not sleep well. I tried several so-called tonics, but did not get any relief. Then I decided to give Dr. Williams' Pink Pills a trial and soon found that I had got the right medicine. Gradually my strength came back, the dull, tired feeling disappeared, and after using the pills for about a month, I could eat heartily and was as strong and active as ever I have been. I can most cheerfully recommend Dr. Williams' Pink Pills as an unsurpassed tonic."

You can get Dr. Williams' Pink Pills from any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Nothing pleases a woman more than being able to convey a piece of information to another woman.

If mirrors portrayed us as others see us we would not use them.

INDISPENSABLE

We receive letters every week from people who find Minard's Indispensable.

Capt. Geo. W. Dolbow, Philadelphia, Pa., writes: "While in British Columbia I used your Liniment but I cannot get it here. As there is to my knowledge no other liniment on the market like Minard's I would appreciate it if you will advise me how I can get another supply, for I do not want to be without Minard's."

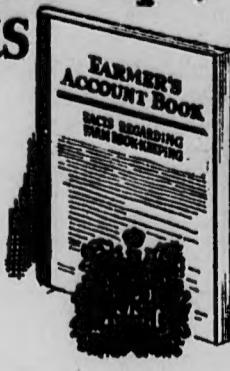

MINARD'S LINIMENT

A Farm Book-keeper for 10 Cents

EVERY farmer ought to know what his farm is making for him and which departments, if any, are not paying. To this end he needs a simple record of receipts and expenditures along with yearly inventories of land and buildings, stock, machinery, feed and supplies.

The Department of Agriculture at Ottawa offers, for 10 cents, a "Farmer's Account Book." Only a few entries from time to time are needed. Send 10 cents for the Account Book and receive also "Seasonable Hints" and our latest list of free publications. Fill in and return slip, post free, to

B.C. Berry Growers

Are Looking Forward to a Good Season in 1925

British Columbian berry growers are looking forward to a good season in 1925. A recent survey shows that there are now 2,528 berry growers in the province, located in the Fraser, Kootenay, Okanagan, Salmon Arm and Vancouver Island districts. The same survey shows that the acreage under cultivation to berries totals 6,308, largely devoted to the cultivation of raspberries, strawberries, loganberries, red and black currants and gooseberries.

Cause of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

Would Increase Radio Fees

Advocates Heavier Tax On Listeners In "So That Radio Can Progress" An increase in the radio fee to listeners was advocated to the special copyright committee of the House of Commons by R. H. Combs, Canadian Radio Trades Association, Toronto.

"I would suggest that the fee be raised," stated Mr. Combs, "to get more revenue, or that an appropriation be made by the house to give the department a sufficient sum of money to properly control the operation of the radio in Canada, so that radio can progress along ordinary lines."

Manitoba Agricultural Products

In 1924 Were Nearly Double That of Previous Year

Agricultural products in the province of Manitoba during the year 1924 reached a total estimated value of \$164,312,857, according to figures issued by the provincial department of agriculture. This amount is nearly double that of the previous twelve months. The greater part of the spread is accounted for by the difference in the value of field crops during these two years.

It will Prevent Ulcerated Throat. At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

Taking French Capital to Belgium

Alleged Plot of Belgian Bankers Has Been Discovered

Nearly 3,000,000,000 francs in capital are estimated by the judicial authorities to have been exported from Valenciennes, France, chiefly to Belgium, in the last three months. It is claimed that Belgian bankers began a systematic campaign to encourage the exportation several months ago. This is reported to have been revealed through the arrest of a Belgian doctor at the frontier. He had disguised himself as a hunchback, his false hump being stuffed with French securities.

There are worlds of thoughts. Decide if you would like to be where one is going before you follow it.

Buying Power

Interim Wheat Pool Payment Should Stimulate Spring Trade

The release of \$30,000,000 among 92,000 Western Canada farmers cannot fail to have a stimulating effect upon all lines of business. This interim payment from the wheat pools represents a net addition to prairie buying power, since it has not been hypothesized in advance. The date of its payment and the amount per bushel were unknown up to the time the payment was made, and it has therefore not been spent or pledged in advance, as was the case with a great part of the money received as initial payment.

Thirty-five cents a bushel, representing a clear cash profit after costs of production and freight have been paid, is a very considerable sum of money, even to the man who has farmed on a small scale, and it will enable him to buy many necessities whose purchase has been postponed. The phenomenon which has been somewhat mistakenly called a "buyers' strike" should now give place to a lively season of spring buying.—Winnipeg Tribune.

Wants Everybody to Know That Dodd's Kidney Pills Have Relieved Him of Kidney Complications

Joseph Hardy, After a Long Period of Sickness Says Dodd's Kidney Pills Have Done Him Good.

Mistassini, Que.—(Special)—Feeling quite well again after suffering for seven years, Joseph Hardy, a well known resident of this place is recommending to his fellow countrymen Dodd's Kidney Pills.

"I have used Dodd's Kidney Pills and found them very satisfactory." Mr. Hardy states in an interview. "I suffered with my head and heart. I could not sleep very well and I was always tired and nervous. I took half a dozen boxes of Dodd's Kidney Pills and they have done me much good. I make no error in recommending them to my fellow countrymen as a remedy for sick kidneys."

If you have any symptom mentioned by Mr. Hardy you may be sure your kidneys need attention. Neglected kidneys are the cause of more than half the ills to which mankind is heir.

Dodd's Kidney Pills act directly on the kidneys, making them strong and healthy. Sound kidneys mean pure blood. Pure blood means good health.

How can a man be expected to hit the mark if he leads an aimless existence?

There's no need of accidents if you'll drive carefully and learn to read a jay-walker's mind.

THE R. F. D. MAN

The man who drives the auto that brings our rural mail looks often half-depleted and wilted out, pale. Sometimes he looks disgusted as if the world were wrong, as if he couldn't muster the shadows of a song.

Well, there's an ample reason for him to have the blues; perhaps a dozen reasons, a hundred, if you choose.

For instance, man people put letters in the box with 27 pennies in disconnected flocks, then think the hurried driver should gather them inanely fail to turn the box

up the mess, then stamp and start each letter to its required address!

Some people put in letters and then inanely fail to turn the box portraying the presence of the mail, and so of course the driver, if he has nought to drop, has no real way of knowing that he's supposed to stop. The next day angry people await him at the gate and threaten to report him to minors of the state.

Sometimes he makes an error—perhaps his car is sick or someone in the office performed a stupid trick—and then there falls upon the hurried driver should gather them inanely fail to turn the box

of two edged phrases as sharp as pressing debts.

Myself, I have determined that I shall never fail to have the best of patience with him who drives the mail; his job is done as perfect as mine, with some to boot. There's too much chronic kicking along our rural route.—*Farm and Home.*

BURNSIDE

BORN:—At the Didsbury General Hospital, on Friday, March 20th, 1925, to Mr. and Mrs. Ed. Anderson, a son:

Don't forget the concert and box social to be given by the U. F. A. for the Hall Piano Fund in Jutland school on Friday evening, March 27th. Splendid program of short plays and music etc.

We are sorry to hear that Mr. and Mrs. Joe Munson are moving to Vulcan very soon having reaped their farm. They will be greatly missed in the neighborhood but we wish them luck in their new home.

The Long Pine Women's Institute held a very successful concert and bazaar on St. Patrick's Day. The proceeds amounted to \$17.50.

The robins are here. Spring has come.

Mr. and Mrs. Chas. Mardon and family spent Sunday at Joe Clarkes.

BERGEN—NICHE VALLEY

Mrs. Walker of Washington has been out here settling up the estate of her father, the late Mr. Geo. Rhodes. Mr. Rhodes came here from Kansas some twelve years ago. He has a son at Humboldt, Kasas, a daughter Mary, who lives in the State of Washington, a daughter Gertrude, also in the States.

Mr. J. J. Davidson's baby girl is now over a month old but still grows more cunning every day.

Walter Swingle hauled a four horse load of wood from Ben Lutkehouse's last Tuesday. Walter knows where good wood is to be found.

Conrad Sande has a saw-mill operating one and a half miles north of Bergen. The mill is near Everett Sande's place.

Rev. Reist and wife are attending the M. B. C. Conference in Didsbury this week.

Dave Allen is one of the Elks' club trustees so rumor has it.

Fred Edmiston and Mr. Watson drove Mr. Rhode's horses into town on Tuesday.

Mrs. McCormick has been suffering with a sore foot all winter. She is a little better.

Mr. Phillips, the "Watkins" man was in the vicinity last Friday. He lives in Murray Valley.

Messrs. Priest and Watt are having a sale the 26th and we are sorry to see them move away.

Ben Good and family will be missed at Bergen as they were active here in church work.

No one has moved onto the Mjölnness place yet, but we hear that Will is going to run the place with Enrid's help.

John Haug has been busy hauling wood to town and various places.

Farrell May Gamble had her first trip into town last Wednesday. It must have been a great day for her.

Mr. Long has taken a homestead on Section fifteen. He is residing at present on Louis Jenkins' place.

Mr. Ladd, Mr. Temple and

Otto Oleson are recent home-steaders in this vicinity.

IN MEMORIAM

OF Ethel Hermanson

Oh she was good as she was fair,
None—none on earth above her
As pure in thought as angels are.

To know her was to love her.
She thought our goodnight kiss
was given.

And like a lily her life did close;
Angels uncircumfered that repose
And the next awakening dawn'd in Heaven.

Mrs. H. Hermanson.

TORNADO TAKES TERRIBLE TOLL IN CENTRAL STATES

Chicago.—A tornado which tore through Southern Illinois after lashing Eastern Missouri, caused considerable damage in Indiana, before it died out to the northeast, after collecting a reported toll of 3,631 persons, dead or injured, on the basis of estimates available from the storm-swept regions where communication was largely destroyed.

While darkness and prostrated wires made the collection of data difficult, estimates which came in through various sources, with ever increasing totals, placed the total dead at 957 and the injured at 2,674.

The destruction of property was enormous. Several towns were almost entirely wiped out, and such populous places as West Frankfort and Murphysboro lost whole blocks of buildings. In the town of Parrish only three persons were said to have escaped injury or death out of a population of 500.

The wind was so powerful at Parrish that bodies were carried more than a mile, it was reported. At Murphysboro, where the dead totalled 100, a schoolhouse was blown over the heads of 245 pupils, while at Desoto late estimates place the dead at 100 and the injured at 300, out of a total population of 703.

To Retain Liquor Profits

Alberta Government Will Not Divide Surplus With Municipalities

Edmonton, Alta.—The government has no intention of dividing the liquor profits with the municipalities of the province as promised last year, according to an announcement made in the legislature by Premier Greenfield. This was the first public announcement as to the policy of the government in this respect.

The reasons advanced for not giving the municipalities a share of the profits were:

First, that the province this year will be able to exactly balance its budget with the liquor profits, which are estimated at \$1,600,000 for 1925.

Second, that if the distribution of the profits were made, additional taxation would have to be imposed to make up the deficiency in provincial revenue.

Aeroplanes Prevent Fires

Forest Patrol Cuts Fires On Federal Reserves in Two

Ottawa.—Fires on federal forest reserves have been cut almost in half, states the annual report of the department of the interior. The success of the aeroplane in patrolling inaccessible districts and locating fires in their early stages, the report adds, has been clearly established, and it is hoped to have even more effective organization in the future along these lines.

Brandon Fair Awards

Brandon.—In the judging of cariot classes at the Manitoba Winter Fair here, J. Tate, of Warren, Man., was awarded first prize for the best 15 finished steers, with the first prize group at the Winnipeg feeder and stocker show last fall. R. Fleming, of Calgary, was second with 15 Herefords; S. J. Henderson, Lacombe, third, with a group of Aberdeen-Angus that were second at the Calgary stocker and feeder show last fall; Thomas Wishart, Portage la Prairie, fourth; and R. J. Phin, Moosefoot, Sask., fifth.

Makes Tour of Trap Lines

Edmonton, Alta.—Count de Brante, Paris, France, has returned from Jasper Park, where he went over the trap lines of "Curley" Phillips in company with the trapper, a jaunt of 200 miles, with snowshoes and dog teams. Owing to the deep snow, the fur catch was small, mostly lynx. The count will shortly leave on his return trip to France via Winnipeg.

Retain Cogee Bridgehead

Paris.—Diplomatic circles believe the Cogee bridgehead is likely to remain occupied for an indefinite period as a consequence of the rejection by the British Government of the League of Nations protocol.

Export Duty On Wheat Is Not Favored

Ottawa.—There will be no export duty on wheat, as was mildly suggested in the report of the royal commission inquiring into the grain trade. In connection with the budget, the matter has been considered, but the proposal will not be acted on. The idea embodied in the report was that an export duty, in stopping the flow of Canadian wheat to American millers who grind it for export, and when doing so get a rebate of duty, might operate to a removal of the American tariff on Canadian wheat generally.

Says West Freight Rates Too Low

Winnipeg Alderman Concludes Investigation Of Western Railway Situation

Winnipeg.—"Western Canada is suffering from too low and not from exorbitant freight rates," Ald. J. G. Sullivan asserted on his return from Montreal, where he has spent seven weeks probing the western railway situation, in relation to the proposed Peace River Valley extensions.

Freight rates in Western Canada, Ald. Sullivan declared, were the lowest in the world, about 75 per cent, lower than those in the United States for similar distances.

"When a rate gets so low there is no margin left with which to pay interest on investments, and the country will consequently suffer from stagnation, there will be no development even in those parts where prospects of traffic would justify the construction of railway lines," Ald. Sullivan said.

He declined to commit himself relative to the Peace River situation, stating it would be poor taste for him to discuss a report which had not been made public by the expert engineers of the two railway companies.

Graham Favors Senate

Is Essential to the Stability of the Dominion

Montreal.—That the senate was essential to Canada's stability and should not be abolished, were declarations at the annual banquet of St. Patrick's Society by Hon. G. P. Graham, minister of railways and canals. Mr. Graham likewise defended the governor-generals who have represented the throne in the Dominion, disagreeing with those who think Canada should have a Canadian as a governor-general.

Reduction of Armament

London.—Premier Baldwin, replying to a question in the House of Commons, said he thought it already was well known that it was the desire of the government to promote the reduction of armaments by any appropriate means, but he was glad of the opportunity of again making it clear.

Channel Islands Report Quake

London.—Severe earth shocks were felt along the northern coast of the Isle of Jersey and other of the Channel Islands. Residents declare the shock was the severest felt in the locality for many years. No damage was reported.

Fire Ravages Tokio

Tokio.—Twenty thousand persons were rendered homeless when a major conflagration swept Northeastern Tokio, destroying 3,000 buildings and resulting in unestimated casualties. The fire was brought under control.

Purchase Not Authorized

Ottawa.—The Vancouver board of harbor commissioners has not been authorized to purchase a new harbor boat. Hon. H. H. Stevens was informed in the House of Commons by the minister of marine and fisheries.

Nominate Candidate

Melfort.—O. D. Hill, Melfort, barrister and prominent as a protagonist of the Hudson's Bay Railway, was nominated as Liberal candidate for Melfort provincial constituency here on the first ballot.

Probe Wheat Price Fluctuations

Washington.—Secretary Jardine has directed the grain futures administration to make an immediate investigation of the recent violent fluctuations in the market price of wheat.

May Assume Management

D. H. McDougall

former Vice-President of the British Empire Steel Corporation, who, it is said, English directors desire to bring back to the management of the corporation.

Settlers From Hebrides

30,000 Acres of Land Purchased in Vermillion District

Montreal.—The Scottish Immigrant Aid Society, through which the immigration to Canada of settlers from the Hebrides has been carried out, has, through the provisions of the Empire Settlement Act, purchased 30,000 acres of land north of Vermillion, Alta., on which it is proposed to settle this year 150 Hebridean families, it is announced.

Through funds secured through the Empire Settlement Act, the society is building houses on each quarter section of the block. Everything will be found ready for the settlers on their arrival, and each family will be assisted with a loan to get farming operations under way.

Warned Against War Menace

Senator Says Canada's Greatest Danger Lies in Pacific

Ottawa.—The Canadian Parliament was not consulted and should have been consulted, on Canada's attitude to the League of Nations protocol. Senator Poirier declared in the senate. For lack of parliamentary endorsement, Premier King's dispatch to Geneva lacked force, he said. Canada was drifting into a system of alliance similar to that which produced the Great War. Isolation was now impossible, and without the safeguard of the League of Nations, Canada might be committed to participation in future wars. The greatest danger lay, he said, on the Pacific, where a Russian-Japanese-Chinese Alliance would menace the peace of North America.

Outlook Brighter For Home Bank Depositors

Government to Consider Return of All Deposits

Ottawa.—Present indications are that the government will reimburse in full the losses incurred by the Home Bank depositors over and above what is realized from their assets.

Legislation to be brought down shortly in this connection will be based on the claim that the warnings given in 1916 were not acted on by the finance minister, Sir Thomas White, for fear of imperilling war finance. While the motive is not assailed, it will be argued that the bank depositors should not suffer.

Haig May Visit West

Regina.—Earl Haig may visit Saskatchewan on his Canadian trip, next summer, as a wire received this morning by Premier Dunning, from Ian MacKenzie, Dominion vice-president of the G.W.A., and chairman of the national conference, promises that the utmost efforts of the committee will be exerted to induce Earl Haig and his party to visit this province.

Settlers From Sweden

Winnipeg.—From now until 1927, although only 6,000 Swedes annually will be available for emigration to countries other than the United States, a large percentage of these will come to Canada, according to H. P. Albert Hermanson, M.L.A. for Canora, in the Saskatchewan Legislature, in an interview here.

United States Will Not Use Singapore Base

London.—Foreign Minister Austen Chamberlain denied in the House of Commons the possibility of use by the United States of the British naval base at Singapore, or that the question even had been discussed. Replying to a further question whether an understanding of any kind exists between British and United States naval authorities, Mr. Chamberlain said that he would find it easier to answer the question if he was confident that he understood it. "As it is, I will confine myself to saying that, so far as I know, there is not now, and I hope there never will be, any understanding between British and American authorities," declared Mr. Chamberlain.

TO BRING 1,000 FAMILIES EACH YEAR TO CANADA

London.—Sailings of families to Canada under the reciprocal scheme for overseas settlement between the Imperial and Canadian Governments have just commenced for the season. One thousand families each season for the next three years is the mark aimed at. For the season of 1925, it is understood that about 500 families have already been secured and that the immigration authorities will feel fairly satisfied if another hundred families can be accepted for this season.

The parties leaving now are going in comparatively small numbers on different vessels. The Canopic this week, however, carried thirty British families for Canada, totalling 168 individuals, giving a good average of five to the family.

Proposed Prison Reform

Lady Member of House Urges Payment For Convict Labor

Ottawa.—Miss Agnes MacPhail, Canada's only woman M.P., proposed in the house such changes in the administration of penitentiaries as would provide:

(1)—Sufficient productive work to keep the inmates employed.

(2)—That a share of the proceeds go to provide for dependents, and, in case of no dependents, such share be held in trust until release.

The resolution received warm support from both sides of the House.

Hon. Ernest Lapointe, minister of justice; Sir Henry Drayton, who at the time was leading the Conservatives; and Robert Forke, Progressive leader, announced their intention of voting in favor. L. H. Martell, Liberal, Hants, had an amendment to eliminate the provision in regard to the prisoner with no dependents.

Time Extended For Starting Western Lines

Manitoba and Northwestern Railway Given Two Years

Ottawa.—Extension of time for two years within which to commence construction of the Manitoba and Northwestern Railway, extending from Theodore, Sask., to a point between Govan and Lanigan, in that province, was approved by the railway committee of the House of Commons. An extension of time for two years, in which to commence construction of two branch lines in Alberta, one from Cardston to Glenwoodville, was also approved in favor of the Alberta and Irrigation Company.

Government Steamers Sold

Seven Disposed of Since Line Was Established

Ottawa.—Seven steamers of the Canadian Government Merchant Marine have been disposed of since the line was established. It was stated in the House of Commons in answer to a question from W. A. Black, Conservative, Halifax. They are the T. J. Drummond, the J. A. McKee, the Sheba, the Canadian Settler, the Canadian Logger, the Canadian Miner and the Canadian Sealer. The total sum realized from the sale was \$745,000. Of this \$224,000 remains unpaid, but is still collectable and is properly secured by statutory mortgage.

Cattle Breeders Elect Officers

Brandon.—James Bowman, of Guelph, Ont., was elected president of the Canadian Aberdeen-Angus Association in annual session here. John R. Hume, of Souris, Man., is vice-president; the directors for 1925 for Saskatchewan are: W. D. Lyon, Devon; James Browne, Neudorf; Alberta: L. Hutchinson, Duhamel, and S. J. Henderson, Lacombe.

Farmers Slaughter Wolves

Edmonton.—Farmers of the district north of Vilna no longer will have timber wolves dictate their hours of evening visits. Thirty-four farmers organized a drive recently, and before the day was over 17 of the big beasts had been slain. The settlers believe the pack has been exterminated, or so thoroughly frightened that there will be no more attacks on individuals.

AROUND THE TOWN

Mrs. W. Scheidt returned home last week from a three months visit to friends in the central States. She states that farmers were working on the land when she left.

A play entitled "Freezing A Mother-in-Law," will be given on Easter Monday evening, April 13 in Rugby school, at 8:30 p. m. There will be a dance after the program. Ladies please bring lunch. Everybody welcome.

Shippers who ship their eggs through Fisher & Edwards, 1924 will receive a dividend of 2 cents a dozen on all extras, or 1 cent a dozen on No. 1's. The reason for this is that the Egg and Poultry Marketing Service received an extra good price for their eggs in storage and the shippers will receive the benefit of this. Anyone interested in the Egg and Poultry pool may get full information at Fisher and Edwards office.

The sympathy of our readers is asked for the city of Calgary. It received two bad bumps last week. The first was the defeat of their splendid aggregation of puck chasers for the hockey championship when the Victoria Cougars won the game which would have put the Tigers in the finals, and then on top of that the Alberta Legislature turned a cold shoulder to their appeal for a junior college to be placed at Calgary. One crack a week is enough for any city but when it gets two in one week—good night.

Mr. J. McCaffray of the Sheriff's office, Calgary, and Mr. V. R. Jones, were in Didsbury on Saturday in connection with the mortgage sale of farm property. Mr. McCaffray is one of the real old time printers and editors of the province being connected with both the Herald and the Albertan in the dim and distant past. He and the Editor of the Pioneer had quite a visit recalling old times and conditions in the publishing and political life of the province which was much enjoyed by both.

FOR RENT—Otr. Sec. of land known as the Harry Steiss farm for \$80 and road work. 25 acre broken, good spring. Phone 90 3c12

AUCTION SALE

Under instructions from L. J. Wrigglesworth I will sell by public auction on the S. W. qtr. Sec. 6, 32-1, W. 5, 3 miles straight north of Didsbury and 6 miles southwest of Olds, on

TUESDAY, MARCH 31st, 1925.
